PXGROUP

PX GROUP

With its unrivalled expertise in the field of metallurgy, PX Group offers customised innovative solutions that meet the most demanding requirements in the medical sectors.

We operate in a wide range of fields, including endoscopy, orthodontics, hearing aids, orthopaedics, dentistry, medical imaging and medical equipment.

PX Group products are delivered in a variety of forms:
In coils, bars, cut parts or finished components.

.....

DISTAL ELECTRODES AND STUDS

Turned parts
Alloys: Pt, PtIr, Au, AuCuAg

THIN-WALLED TUBES, SHAPED TUBES FOR ENDOSCOPES AND MARKER BANDS

Ø 0.3 – 4mm / Wall: 0.025 to 0.250 mm
Alloys: Pt, PtIr, Au, AuCuAg, Pd, PdAg and stainless steels
Length 0.4 to 12 mm / polished and deburred parts

PRECIOUS METAL FINE WIRES

Custom dimensions
Alloys: Pt, PtIr, Au, AuCuAg, Pd, PdAg and stainless steels

NON-PRECIOUS METAL ROUND BARS AND WIRES

Ø 0.70 - 15.00 mm
Alloys: Standard or special stainless steels, grade 2 titanium and beta titanium

PROFILES FOR ORTHOPAEDIC AND TRAUMATOLOGY APPLICATIONS

Custom dimensions: Ø 2 – 45 mm / thickness 2 - 15 mm / max. length 3200 mm
Alloys: Grade 2, 3, 4, 5 / 5 ELI titanium (grade 23), 6Al7Nb titanium, 1.4441 / 316 LVM stainless steel

CUTTING TOOLS

Our cutting tools for the medical market feature a geometry optimised for demanding materials such as stainless steels and titanium or CrCo alloys. They guarantee precision and durability, meeting the most stringent standards in the sector.

DENTAL PRODUCTS

A vast range of products, from consumables to equipment, and in particular a comprehensive, high-quality CAD/CAM product range.

RECYCLING AND REFINING

With its own foundry, the company can offer its customers a high-performance waste treatment service, while also meeting its own needs. Our control of the recycling and refining operations ensures the responsiveness and autonomy needed to ensure optimum flow.
